â?? The human experiment on planet Earth is on the verge of self-destruction. Looking at the threats of nuclear war, the chemical and biological ecocide, global climate change, proliferating weapons on Earth and in space, the greed of corporations, and the gross cronyism and mismanagement of the U.S. government, the bloated military budgets and aggression, the distractions of our cultural conditioning, the spread of fear and ignorance, the suppression of life-saving technologies, the disparity of wealth and poverty among us, it is amazing we are still here.

Barely.

Do we have any hope?

My answer is, we can only try. And if we do try, where can we find the answers?â??

The quote above is from the endorsement to Steven M. Greer in Greerâ??s book *â?? UNACKNOWLEDGED â?? AN EXPOSÉ OF THE WORLDâ??S GREATEST SECRETâ?•* (published in 2017) and was written by scientist, author, and former Apollo astronaut, Brian Oâ??Leary in 2005.

In the same endorsement Oâ??Leary answers his own question: *â?? ET visitations were not only real, they could assist us in overcoming the human-caused global crisis.â??*

WE'RE NOT ALONE. WE NEVER WERE.

Unacknowledged by Steven M. Greer (2017)

In this book Greer writes about *Unacknowledged Special Access Projects* (USAPs), how they operate, what they are hiding??and most of all, WHY. He got the information from his interviews with top-secret

witnesses who have (in Greer's words) *exhibited true courage and patriotism in coming forward and telling the world what is going on in the extreme secret world of UFO-related USAPs*?

In the next of the Exterrestrial series I give some bio info on Steven M. Greer.

Revelations

These revelations underscore a long, sordid history of governmental and media secrecy and the acquisition of technologies such as microelectronics, anti-gravity propulsion and zero point, or *free energy*, from our visitors.

This massive cover-up has been going on for almost six decades, since the UFO crash near *Roswell, New Mexico* in July 1947, an event which was certainly not caused by balloons, as alleged by the *U.S. Air Force*.

Such myths are only accepted by the ignorant or the powerful and their subjects.

The long-range atomic bombers (like the ones used to bomb Hiroshima and Nagasaki) were stationed in *Roswell*, the bomb was created in *Los Alamos*, the first one exploded in *Alamogordo*, and missiles to deliver future bombs were tested in *White Sands*—all in *New Mexico*, a nexus of the military-industrial complex.

Was it just coincidence that the 1947 *Roswell UFO crash* also happened there?

Majestic 12

The book contains information that has been kept from sitting U.S. presidents, senators, members of congress, heads of state, and the Joint Chiefs of Staff — to name a few. What Greer has learned over the last three decades is that there are two U.S. governments — the government of *We the People* represented by elected officials, and a shadow government made up of mid-level functionaries whose roots trace back to a black ops organization launched in the 1940s by *President Truman*.

This group, known back then as MAJESTIC-12, was tasked with keeping the truth from the public regarding the most astounding discovery in the history of the world—UFOs and the existence of Extraterrestrial life.

MEMORANDUM FOR THE SECRETARY OF DEFENSE

Dear Secretary Forrestal:

As per our recent conversation on this matter, you are hereby authorized to proceed with all due speed and caution upon your undertaking. Hereafter this matter shall be referred to only as Operation Majestic Twelve.

It continues to be my feeling that any future considerations relative to the ultimate disposition of this matter should rest solely with the Office of the President following appropriate discussions with yourself, Dr. Bush and the Director of Central Intelligence.

Start of the Majestic Twelve by Truman

The thought of UFOs and extraterrestrials being real is difficult for most of us to take seriously. Logically, we can accept that the universe, being vast beyond our comprehension, is certainly capable of supporting countless other species — NASA estimates there are between one hundred billion- and four hundred billion-star systems in our *Milky Way Galaxy* alone. Emotional acceptance is more difficult. All our lives we've been conditioned to believe that UFOs aren't real, and that anyone who believes in ETs is crazy.

And yet many of us have seen these crafts — and would prefer not to remain silent, and that's what the book is about.

Greer's own encounter

Greer had his own UFO experience: *My own first encounter happened on a sunny afternoon in the early 1960s. Three of my boyhood friends and I were out roaming our neighborhood in Charlotte, NC, when an object suddenly appeared in the southwest sky: a silver oval-shaped gleaming*

craft—obviously not an airplane or helicopter. It was seamless, silent and unlike anything we had ever seen. After hovering for a short time, it instantly vanished.•

Compiled within the book are secret files, documents, and never before-published conversations, transcribed from interviews between myself and key eyewitnesses about numerous UFO and extraterrestrial encounters.

Many of these men and women have held the uppermost top-secret security clearances while serving in the Intelligence community and all branches of the armed forces; others have worked for defense contractors servicing the *U.S. Defense Department*. All have courageously come forward at a time when humanity faces a crossroads that will determine the very survival of our species.

Of these interviews, more than 100 are on film, contributing hundreds of hours of testimony and thousands of pages of transcripts. Additional material and videos of testimony and documents can be found at www.SiriusDisclosure.com, spanning sixty plus years of events to give the reader a sense of the subject and how illegal secrecy has been maintained—and why.

Book objectives

Greer has three specific objectives in presenting this information to the public:

- First, to provide evidence which supports a timetable of undisclosed events that led to the biggest cover-up in the annals of human civilization.
- Second, our witnesses will reveal how a scientific endeavor kept out of the public eye during the height of the *Cold War* was hijacked by the *Military Industrial Complex*.
- Third, and most important, by making this information public we hope to enlist the influence of the masses in order to force the release of these black-shelved free, clean energy technologies, specifically those harnessing the power of zero-point-energy and anti-gravitics.

Nikola Tesla and J.P. Morgan

You may be thinking *ah, come on now; I know this can't be true. Why would anyone deny a non-polluting free energy source that can do so much good for the world?*

In a word: **Power**—of which money is only a symbol.

In 1901, when Nikola Tesla¹ had figured out how to tap into the zero point-energy field—a discovery that would have made power plants obsolete. J.P. Morgan² didn't like the idea of free energy, having just invested heavily in the copper wire that was required in electrical wiring. So, the industrialist got his cronies in Washington, D.C. to stop Tesla and had them confiscate all his work.

Stagnated growth orâ?!

A century later, our growth has stagnated, our vehicles are still saddled with gasoline-dependent combustion engines, the poles are melting, cancer runs rampant from our needless exposure to the rising amount of toxins being pumped every day into our environment, and 80% of the worldâ??s population lives in abject poverty.

Greer is sure we can change all that: *â??Zero-point-energy and anti-gravity propulsion systems already exist. This book will tell you exactly where they are and how we can get them. The extraterrestrials want us to succeedâ??as the evidence will show, they are here as allies and not adversaries. However, they have made it quite clear that the entry ticket for human civilization to become interplanetary is, first and foremost, to be civilized, to live together peacefully, to renounce weapons of mass destruction, and to go out into space free of weapons systems with a consciousness of universal peace.â??*

DNI Report, June 25th 2021

On the 25th of June 2021, the Office of the Director of National Intelligence (DNI) published their *â??Preliminary Assessment: Unidentified Aerial Phenomenaâ?•*. It is (in their words): *â??an intelligence assessment of the threat posed by unidentified aerial phenomena (UAP) and the progress the Department of Defense Unidentified Aerial Phenomena Task Force (UAPTF) has made in understanding this threat.â?•*

In laymen terms, we would say unidentified flying objects (UFO) instead of unidentified aerial phenomena (UAP).

Office of the Director of National Intelligence (USA)

The dataset described in this DNI report was limited to U.S. Government reporting of incidents occurring from November 2004 to March 2021.

Purpose

The purpose is to provide *an overview for policymakers of the challenges associated with characterizing the potential threat posed by UAP while also providing a means to develop relevant processes, policies, technologies, and training for the U.S. military and other U.S. Government (USG) personnel if and when they encounter UAP, so as to enhance the Intelligence Community's (IC) ability to understand the threat.*

Challenges

There were some data collection challenges, like:

- Narratives from aviators in the operational community, and analysts from the military and IC, describe **disparagement**, associated with observing UAP, or attempting to discuss it with colleagues.*
- The sensors mounted on U.S. military platforms are typically designed to fulfill specific missions. As a result, those sensors are not generally suited for identifying UAP.*

DNI conclusions

Their conclusions are as follows:

-
- *“The limited amount of high-quality reporting on unidentified aerial phenomena (UAP) hampers our ability to draw firm conclusions about the nature or intent of UAP.”*
 - *However: “In a limited number of incidents, UAP reportedly appeared to exhibit unusual flight characteristics. These observations could be the result of sensor errors, spoofing, or observer misperception and require additional rigorous analysis.”*
 - *But: “UAP clearly pose a safety of flight issue and may pose a challenge to U.S. national security.”*
 - *And: “a handful of UAP appear to demonstrate advanced technology. Some UAP appeared to remain stationary in winds aloft, move against the wind, maneuver abruptly, or move at considerable speed, without discernable means of propulsion.”*

Greer vs DNI

One observation in the report complies (at least for me) with Greer’s observation on the Roswell crash (see above): *“Most reports described UAP as objects that **interrupted** pre-planned training or other **military activity**.”*

Of course Greer has his own thoughts about the report. He sees *one truth* and *three lies*:

One truth

The report acknowledges that UFOs are real, and not simply misperceptions of other known craft or phenomenon.

Three lies

1. that we do not know what the UFOs are;
2. that the US does not have any aircraft or technologies that can perform in the manner the UAPs do;
3. that the UAPs are a threat to *“national security”*.

This one truth and these three lies are what Greer’s book is all about!

¹**Nikola Tesla** (10 July 1856 – 7 January 1943) was a Serbian-American inventor, electrical engineer, mechanical engineer, and futurist best known for his contributions to the design of the modern alternating current (AC) electricity supply system.

²**John Pierpont Morgan** (April 17, 1837 – March 31, 1913) was an American financier and banker who dominated corporate finance on Wall Street.
